# Alumatek® OUTDOOR FINISHES

**ALUCOBOND®**  
GIVING SHAPE TO GREAT IDEAS

### ALUCOBOND® PLUS

4mm aluminum composite material (ACM) comprised of two sheets of smooth .020" aluminum thermobonded to a solid, fire retardant core. Developed exclusively to meet fire performance requirements while providing the benefits & versatility of ACM.

### ALUCOBOND® AXCENT

A solid .040" gauge flat aluminum sheet that offers the perfect complement to ALUCOBOND PLUS. AXCENT is excellent for columns, parapet caps, canopies, soffits, and trim.

The ALUCOBOND product family offers:

- Flatness and Rigidity
- Durability
- Light weight
- Formability
- Ease of fabrication
- Perforation capabilities
- 86 stocked ACM colors
- Custom color capabilities
- Complementary flat aluminum sheet colors
- Can contribute toward earning LEED points
- 100% recyclable
- Zero VOC's emitted in use
- EPD in compliance with International ISO Standards

The versatile characteristics of ALUCOBOND provide for a plethora of applications such as exterior & interior cladding, column covers, canopies, spandrel panels, soffits, metal trim and more, allowing architects to offer inspiring and innovative designs while meeting the standards of sustainable planning. # The Classic Collection

Color plays an integral role in the architectural environment, and the timeless palette in our Classic Collection reflects your passion for what's possible. From Classic neutrals to biophilic hues, this line offers a wide range of options to give shape to your ideas.

Alumatek - Outdoor Finishes

The Classic Collection

# The Spectra Collection

To add a dynamic element of fascination and movement to any architectural facade, these transitional finishes celebrate the natural color shifts that occur in the world around us - from raw natural elements to the glowing luster and sheen found in modern alloys and luxury lines.

# The Natural Collection

Biophilic design conceptualizes spaces in a way that acknowledges the human need to connect with nature. The finishes in the Natural Collection amplify the organic beauty and character of different elements and materials found in the world around us.
